/Bernard Krasnic/  
 Examiner, Art Unit 2624

(Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: After reviewing the Applicant's arguments and after carefully reconsidering all the prior art references and all the prior art rejections, the Examiner initiated a telephonic interview with the Applicant's representative, Mr. Kimms (Reg. No. 34,079), to offer an Examiner's Amendment in order to expedite prosecution. The Examiner respectfully suggested incorporating claims 7-10 into the independent claim 1 and positively reciting the redeye in the body of the claim to be the defect. Similar language was suggested to be incorporated into the other independent claims. The Examiner also suggested having the independent method claims 1 and 20 recite language that would tie the significant method steps to an apparatus in order to avoid the 35 U.S.C. 101 In re Bilski "tied to" issues. The finalized proposed amendments which were agreed upon by both the Examiner and the Applicant have been attached to this Office Action.
